

Signing of the DEED **We are still waiting!!!!**

As you are aware the **State & Federal Office of the AMIEU** together with delegates met onsite with the Company and the Company's lawyers to discuss your **Underpayments/allege Overpayments**. At that meeting an **outcome was agreed**, and a **DEED** was **proposed**. The company's Lawyers drew up the deed for the **AMIEU** to sign off on first, before handing it **each individual employee to sign**.

The **AMIEU** were **not** comfortable with **some of the wording** of the deed and have contacted the Company's Lawyers to arrange **suitable** wording to **reflect** what was **agreed upon**.

We are hopeful for a resolution based on what was discussed and agreed upon soon.

We are aware the time frame indicated for your **payments** is now **overdue**. But before signing any legal documents on behalf of the membership we have to be certain that the document will benefit the membership.
